## REMARKS

The figures of births and deaths shown in this statement for week ending the 29th January 1955, relate to 177 towns with an estimated population of 20,563 thousands. The total number of towns is 300 and their population is 38,987 thousands. Thus 59% of the total number of towns representing 53% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 10,644 and 5,038 representing birth and death rates of 26.9 and 12.7 per thousand of population respectively.

(A) States (Part A and Part C).—The data here relate to 147 towns with an estimated population of 16,374 thousands. Information about Ajmer, Bihar, Bhopal, Bombay and West Bengal could not be included. The total number of towns is 252 and their population is 32,571 thousands. Thus 58% of the total number of towns representing 50% of the total

population is covered. The number of births and deaths recorded in these towns were 9,306 and 4,245 representing birth rates and death rates of 29.6 and 13.5 per thousand of population respectively. The table at the end gives the position by States. No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 30 towns with an estimated population of 4,189 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 63% of the total number of towns representing 65% of the total population is covered. The number of births and deaths recorded in these towns were 1,338 and 793 representing birth and death rates of 16.6 and 9.8 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
